Mauch Chunk Items.

Judge Houston sails for Europe on the 10th of July.

Governor Hartranft and Attorney General Dimmick stopped a short time at Mauch Chunk on Friday of last week.

The new train on the L. V. R. R. has been baptised by the conductors "The owl train."

A large picnic from Hazleton rusticated at Onoko Glen on Wednesday.

John C. Dolon traded off his gray horses for a pair of bays to a firm in Tamaqua.

From the manner in which the houses in town are being painted and improved Mauch Chunk will soon wear a modern appearance.

The street sprinkler is kept busy now, and the driver perched upon the top of the tank under a large buff umbrella looks like a "Heathen Chinee."

B. H. Zimmerman, late of the Columbia House, has removed to Packerton, and keeps the boarding house lately occupied by Mrs. Ott.

Judge Manyard, of Williamsport, remained in town over night during this week. He was the counsel of O. H. Wheeler, Esq., the American Tichenborne, in the Hazleton ejection cases, which were dismissed by Justice Strong, of the Supreme Court, lately.

H. H. Merriek, for many years freight agent at the L. V. R. R. depot, has resigned his position and will remove to Eckley to take charge of a store there.

The High school commencement begins on Tuesday evening, at the Court House.

Mayor Havenmeyer, of New York City, and sixty others stowed away 30 lbs. of brook trout at the Mansion House for supper one evening this week.

Hon. Allen Craig tendered the members of "The Old School" a complimentary banquet at his residence, on Wednesday evening. Fifteen members of the organization, including ex Sheriff Raudenbush, of Lehighon, and several invited guests were present. The banquet was a most friendly one and after it was over the large Musical Box, with drum and castnet accompaniment, furnished some very choice music for the guests. It was brought from Geneva by the host while on his European tour last year.

The Jr. Order of Mechanics gave a very enjoyable Hop, at Mt. Pisgah Pavilion, on Tuesday night.

Two boys were badly kicked about the face by mules at Coalport this week.

The School Houses are not commodious enough for the rapid increase of scholars, and a new school building is talked of now. How would it do to trade off with Lehighon?

On Friday of last week, Mr. Michael Connell and wife, of Beaver Meadow, who were attending court in a commonwealth case, received word that a little child of theirs, 19 month old, had wandered away from home and was lost. The coal works were stopped and the little one was found dead in the woods close by.

Mr. H. J. Woodring, proprietor of the American Hotel, was married to Sallie Swank, of this place, on Thursday of last week, the wedding took place at Wilkes Barre. On his return the happy pair were serenaded by the Phoenix Cornet Band, and a very handsome clock valued at \$50 was presented them by some of their friends.

The Coal Trade.

The following table shows the quantity of coal shipped over the Lehigh Valley Railroad for the week ending June 29th, 1874, and for the year as compared with the same time last year:

Big Creek Items.

Weather warm and very dry. Small grain and grass very thin and short. Unless we have rain soon we will have but very little grass or hay. Corn a good stand and good color but grows slow. Potatoes come up uneven. A splendid time to kill weeds, which farmers are not slow to improve. The fruit crops looks promising, except apples which will not be one third of what was expected at the time of blooming.

The Quails which were quite extinct for several years, have now again made their appearance in quite large numbers around our fields and seem to be saying "some more wheat."

Mr. Jacob Graver, of this place is building an addition to his dwelling, for summer use.

Mr. Jefferson Souers had the pleasure of taking out of Pine Run (with fly) a trout measuring 15 inches, last week. How is that for high?

The chicken cholera has again made its appearance, some farmers have lost nearly all of their fowls by this nasty disease.

Warm days and cool nights are the latest.

The Potato Bug!

Many of our farmers and gardeners in this section are complaining of the ravages of the potato bug among their crops which threaten to be of a very serious extent. They have also made their appearance in Lehigh county, in speaking of which the Allentown Democrat says: Potato bugs were first observed in the West some four or five years ago, and since then they have been gradually spreading over the entire country. This is the first year that they have appeared to any extent in Lehigh, but now that they have come on it is likely every township will soon have them. On account of their origin on the plains of Colorado and Nevada they were first called the "Colorado potato bug," which name they have since retained. They belong to the beetle family, are of oval shape, and striped on the back. They are red in color and vary in size from a pin-head to a bean. They increase very rapidly; it is said that one bug in a single year multiplies more than 50,000. The insects feed not only upon the potato vine, but when this source of food is exhausted they feed upon the leaves of all kinds of vegetation. They are particularly destructive upon plants belonging to the same family as the potato vine, such as the tomato and egg-plant.

As it should be!

Thos. S. Beck, agent, and Elias Dreisbach, give notice, in another column of to-day's paper, that they will prosecute all persons found hunting or fishing on Dreisbach's Dam or the adjacent lands. This, we say, is as it should be, for the reason that the parties who have received most benefit from the dam were the ones to raise a bag of wind, to the effect that the dam was in an unsafe condition, and that their town, Mauch Chunk, was in imminent peril therefrom. We refrained noting this clap-net of a few of the Mauch Chunkers before, knowing that the matter was to be brought before the Grand Jury; it has been so brought before that august body, and the report of its unsafe condition proved to be nothing more than the belching forth of a superfluity of long concentrated wind, got up perhaps to take the attention of the people from the rotten bridge leading to East Mauch Chunk and the dangerous condition of the road between this borough and ye ancient town of Mauch Chunk. This time, ye windy Chunkers find that the "chicken has come home to roost."

Watch stolen.
Henry Kramer, residing on the road leading to Parryville, had a watch purloined from his residence on Wednesday last. Two little boys aged respectively 9 and 11 years, entered his dwelling, by placing a rail against the window sill and climbing up to and through the second story window, and carried off the watch valued at \$15, and afterwards sold it to a man for 30 cents, who took it to F. Deborde of this borough to have some repairs done to it, when he (Deborde) found his mark upon it and notified Mr. Kramer that the watch had been brought to him for repair. A warrant was obtained and the boys were arrested and taken before Esq. Campbell, who committed them to jail.

Piles! Piles!! Piles!!!
Piles, Internal, External, Bleeding or Itching. The intense suffering occasioned by the distressing disease, in its various forms, is known only to those who are unfortunate enough to be afflicted with it. The sleepless nights, the uncomfortable days, the laggard looks of the sufferer bear witness to the intensity of the pain experienced when troubled with this prevailing disease. The success of Bridges' Pile Remedy as a positive cure is unexampled in the annals of medicine. Relief is immediate when used as directed. The immense demand for this great remedy is unparallelled. Thousands are using it with the most satisfactory results. Sold by A. J. DURLING, druggist, Lehighon, Pa. may 9 1/2

Tape Worm! Tape Worm!
Tape Worm removed in from 2 to 3 hours with harmless Vegetable Medicine. The worm passing from the stomach into the bowels, is seen at the end of the entire worm, with Lead, passes. Medicine harmless, can refer those afflicted to the residents of this city whom I have cured. At my office can be seen a number of specimens, measuring from 1 to 100 feet in length. Fifty per cent. of cases of Dyspepsia and disorganizations of the Liver are caused by stomach and other worms existing in the alimentary canal. Worms, a source of the most dangerous character, are so little understood by the medical men of the present day. Call and see the original and only worm destroyer, or send for a circular which will give a full description and treatment of all kinds of worms, enclose 5 ct. stamp for return of the same. Dr. E. F. MERCHANT TAILORING.
When in the course of wear and tear of every day life it becomes necessary to dissolve our connection with the suits that have done us so much services in keeping us warm and free from exposure, there is one place where we can find consolation and a friend indeed in our distress. Yea, a place where we can safely put our trust—where there is no need of fear that we shall be cheated, unsuited or unsatisfied—where the fabric is strong and the manufacture superb—where the prices are just and and the style all that can be desired. There is a charm about an easy, glove-fitting, elastic suit, that is seen and observed by all men. "Where did you get that superb suit of clothes?" "Where did you secure such a splendid fitting garment?" is often asked. There are many tailors, and a number of them are undoubtedly fair samples of the genus homo and also a credit to the craft; but how generally tailors fail in the fitting of garments to the human form; how often a good piece of goods is spoiled in the fit; how sadly and dejectedly many a man wanders about the streets, feeling the shame the tailor has caused him, in allowing a poor job to go out of his shop, and be the wearer of it! Perhaps his lady love has even jilted him in consequence of his forlorn appearance.

"—Dress makes the man;
Not that a man is less a man for wearing plain clothes, but when he is "dressed up" he should indeed be dressed not having his cloths hang like bags around him, and wrinkled and distorted in all sorts of shapes, but that he should be clad in fitting garments. Taste should be shown both in the colors and make-up of his suit. Many high priced goods are of such outlandish colors and styles that a man's character is judged by his foolishly selecting those odd goods. A man is known by the company he keeps, and if he insists upon frate-raizing with ill-fitting and ill-fitting clothes, he will not make his "mark," as a man of taste, that's his positive. To be looked upon as possessing the requisite attainments of a tasty gentleman, he must select cloths of suitable colors for his clothing and have them made up in first-class style by Laury & Peters, (post office building), Lehighon, Pa., who have a splendid stock to select from, and where you will obtain that symmetry of fit so necessary to the adornment of the person. Call and examine the most beautiful assortment of cloths, cassimers and vestings, ever brought into Lehighon, and leave your measure with Laury & Peters.
